Math Club
Math is solving puzzles. Math is finding patterns. Math is Logic. Math is the language of nature.

If this sounds interesting to you then you should join the math club!

For the parent: The math club is for students who enjoy mathematics and problem solving. The instructional aspects of the club will focus on students developing mastery of fundamental concepts. Students will learn to apply robust problem solving strategies so they can be confident and innovative in their mathematical endeavors. The club will learn new math concepts and then collaborate to find solutions to interesting puzzles.

The Coach, Dylan Mead, has degrees in Mathematics, Physics, and is currently a PhD student. Dylan has tutored adults in STEM fields at LCC and UO. Dylan has also volunteered time at elementary schools to teach students math.

Who: Students in grades 4 and 5.
When: Mondays 2:20 - 3:20
From Sep 22 to Dec 15
Where: Room 6 at Camas Ridge
